

**RELEVANT FACT
CARBURES EUROPE, S.A.
18th August 2015**

In compliance with the provisions of Circular letter 9/2010 from the *Mercado Alternativo Bursátil* [Alternative Stock Market] (the “**Market**”), and for its knowledge, as a relevant event, Carbures Europe, S.A. (herein after “Carbures” or the “Company”) communicates the following information to the Market:

Sociedad Grupo Profesional Planeación y Proyectos, S.A. part of C.V. (“PYPESA”), 97% affiliate of Grupo Carbures, has been awarded a contract by PEMEX-Explotación y Producción, for the provision of engineering services to develop oil infrastructures for the assets based in the marine regions of North and South Mexico, for a maximum value of 200 million Mexican pesos (approximately 11 million Euros).

The contract starts in August 2015 and lasts for 27 months, which ensures PYPESA Company will have recurring revenue which will materialize according to the degree of progress of the works until the end of 2017.

Project engineering is a previous step for the potential manufacturing of structures in composites for oil platforms, which replace the current metal ones , a lot less resistant to sea water corrosion and, in general, unfavourable weather conditions.

The affiliate Carbures PYPESA is a Mexican consultancy firm with more than 20 years of experience in the execution of this kind of engineering services. The services forming the object of the contract consist of infrastructure, research and studies engineering projects, drafts opinions and/or technical analysis and techno-economic feasibility studies and will be provided in the main headquarters of PYPESA, in Mexico City and in the city of Poza Rica, Veracruz state.
