

RELEVANT FACT
CARBURES EUROPE, S.A.
26 October 2016

In accordance with the provisions of Article 17 of Regulation (EU) No 596/2014 on market abuse and Article 228 of the Consolidated text of the Securities Market Law, approved by Royal Decree 4/2015, of 23 October and related provisions, as well as according to Notice 15/2016 of the Alternative Stock Market (MAB), we provide the following information:

The Spanish Patent and Trademark Office (SPTO) granted Carbures Europe S.A., the patent on "the modular drawer for vertical dams and assembly procedure" published with P201531771 file number. This patent is granted for a period of twenty years counted from the application date, until the 4th of December of 2035 (date of the end of its legal life).

This invention is framed in the construction of dams within the technical field of port and maritime works.

The invention provides a cylindrical modular drawer for the construction of vertical dams or breakwaters as an alternative to traditional drawers made of reinforced concrete. It also provides the assembling procedure which eliminates high costs of required materials for execution of traditional techniques as well as lower future maintenance costs and a reduced environmental impact of the structure.
