

RELEVANT FACT
CARBURES EUROPE, S.A.
September 5, 2017

In accordance with Article 17 of the Regulation (EU) n° 596/2014 about market abuse and Article 228 of refunded text 228 of Stock Market Law, approved by the Royal Legislative Decree 4/2015, of October 23, and concordant provisions, as well as in Circular 15/2016 of Alternative Stock Market (MAB), we provide the following information:

Carbures Mobility has signed a 5.56 million euros contract (6.6 million dollars) with a Tier 1 automotive world reference for the Chinese market. The contract will be fully executed before the end of September 2018. Due to confidentiality agreements, the name of Tier 1 is not disclosed.

The quantity is divided into two orders: the first one is to design and manufacture an automated test line for the manufacture and assembly of steering systems in cars, and is valued at 1.18 million euros. The second one, which has a value of 4.38 million euros, is the creation of a complete production system with an automated assembly line, with the necessary testing and verification for each element used in the power steering.

Carbures has been the company chosen to carry out this project as it stands out as one of the only suppliers in the world capable of providing this type of technological and industrial solutions. The project will be carried out in different Carbures Mobility locations: Manresa and Suzhou (China), where the new plant in China is located and where the installation and technical assistance to the customer will take place in order to deliver this technology. In addition to the technical capacity, the geographical proximity has been a key element in the achievement of this contract.
